IMPACT**

MOBILE TARGET SYSTEMS

FEEDBACK IS EVERYTHING

POP UP LIGHT - SOUND & SENSORS

Smart Targets combine powerful sensor lighting inside a durable, light weight optical nylon target that sets up in minutes and entertains with responsive light and sound when hit.

Since Smart targets are so light, you can move them during competitions to create dynamic games for all levels.

SMART TARGET SPECIFICATIONS

- Powered by 24Watts of RGB light
- Targets respond with light and sound
- Lights run on wireless mesh network
- Laptop control of targets
- Targets made of ripstop nylon
- Light weight 60 lbs
- Runs on 140 CFM attached blower
- Runs on 10ah Lithium Batteries

MOBILE TARGET SIZES

DESIGN YOUR CUSTOM FIELD

- Targets sizes from 15, 30, 40 and 50ft in diameter
- Internal structure allows targets to set on flat on ground
- Targets come in low profile and high profile
- Numbers and branding available
- Custom sizes and shapes available
- Targets come in vinyl carry bag

Backfield Tower
24ft high/20ft base

30ft 'high profile' target

30ft 'low profile' target

SmartTarget Mobile System – ROI

Payback on your system

For a *3 Target System* – 8 events with 50 people at \$50 each

For a *6 Target System* – 6 events with 100 people at \$60 each

**ask your SmartTarget representative for more details*

MOBILE TARGETS

12ft - Land & water

1-3 Target Parties in minutes

- Sets up in 10 minutes
- Light activated
- Light weight - 60 lbs
- Runs on 6 hr lithium battery

A major part of the cosmic experience is being able to watch the balls fly through the sky like bottle rockets to the targets

COSMIC ACCESSORIES

TURN OUT THE LIGHTS AND TURN ON THE BALLS

- Ball Charger & Tray
- GlowV1 Glow Balls
- LED Marker lights

SYSTEM CONTROLS

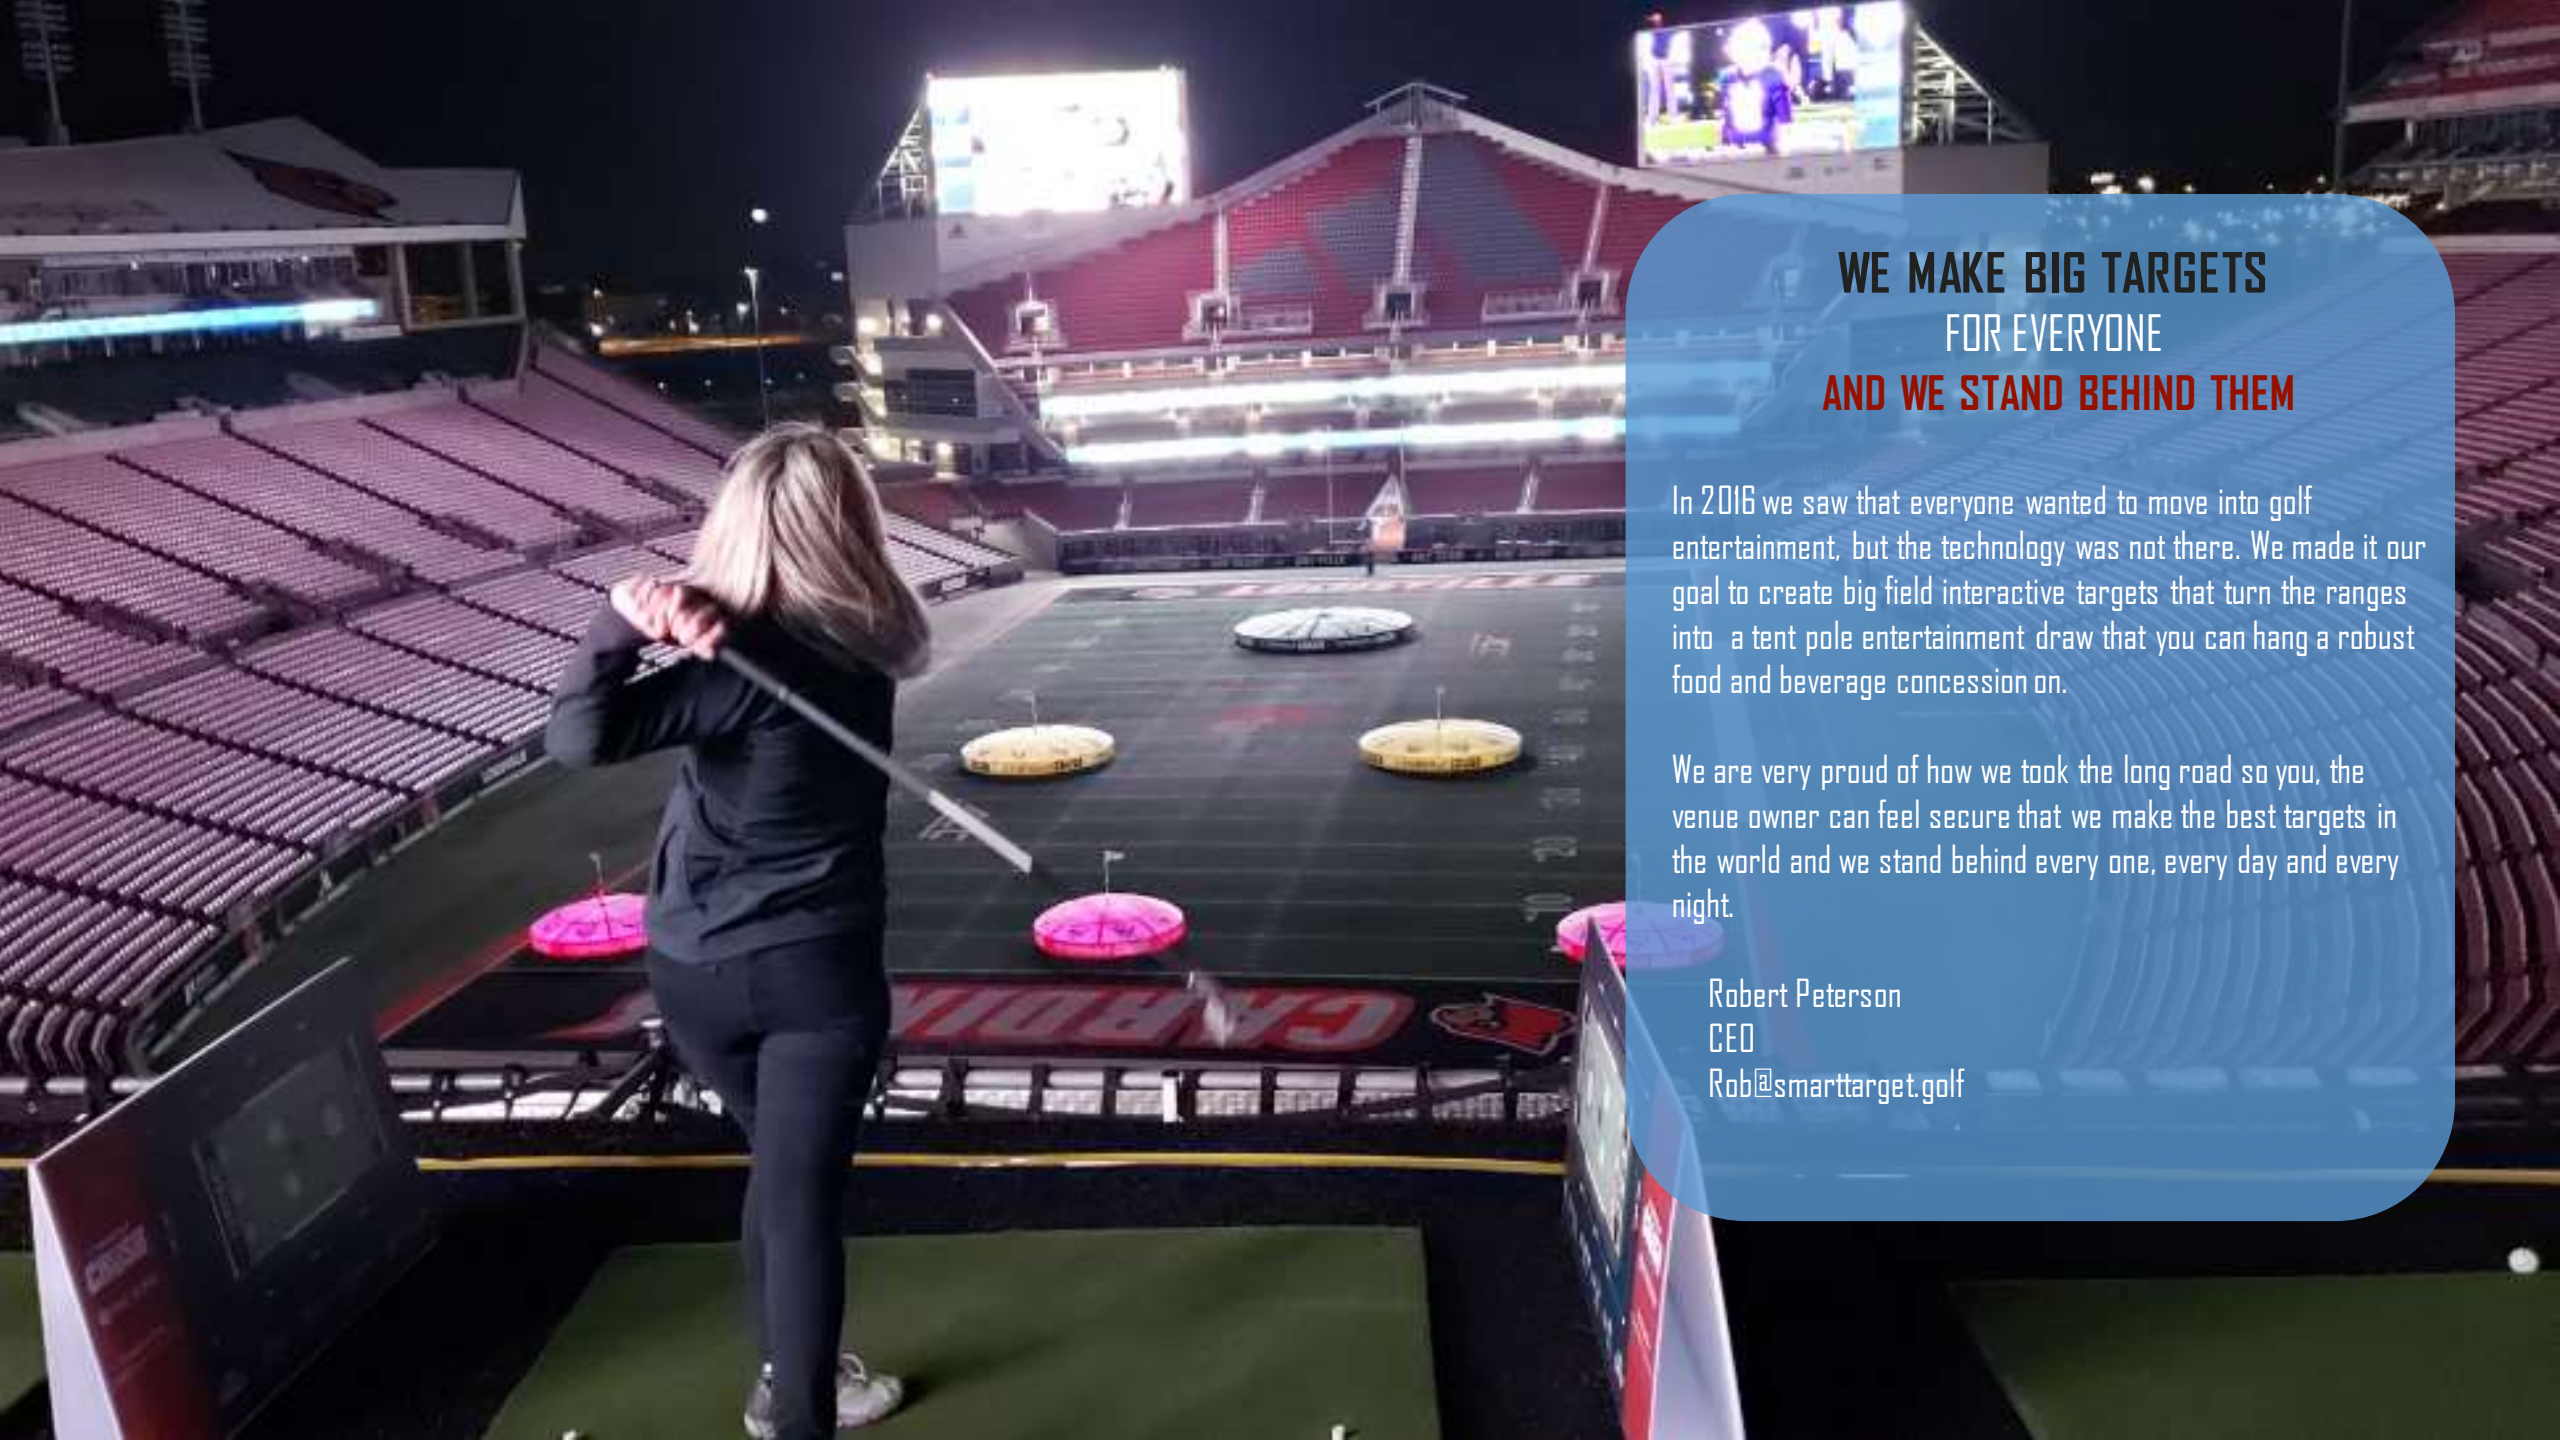

MOBILE AND PERMANENT

CONTROL THE FIELD FROM THE CLUB HOUSE

ALL SMART TARGETS communicate through a wireless mesh network that you can control from a laptop at the tee line. Change the light and sound on the fly for mobile or permanent targets.

- System program provided on PC laptop or rack blade
- Control light and sound
- System works on a wireless mesh network
- System online for remote field support
- System checks for health of each target

**WE MAKE BIG TARGETS
FOR EVERYONE
AND WE STAND BEHIND THEM**

In 2016 we saw that everyone wanted to move into golf entertainment, but the technology was not there. We made it our goal to create big field interactive targets that turn the ranges into a tent pole entertainment draw that you can hang a robust food and beverage concession on.

We are very proud of how we took the long road so you, the venue owner can feel secure that we make the best targets in the world and we stand behind every one, every day and every night.
